# Dr. Maqbool's Transition to Delta Neurology & Sleep

November 23, 2026

Dear patients and families,

**My last day at Texas Child Neurology (TCN) will be December 30, 2026.** In January, I'll begin seeing patients at my new practice in McKinney TX, **Delta Neurology & Sleep**.

Caring for you and your children has been a privilege. Many of us have worked together for years, navigating difficult diagnoses, celebrating progress, and watching your children grow. Thank you for the trust you have placed in me. I would be honored to continue caring for your family at Delta.

As a board-certified pediatric neurologist and sleep medicine specialist, I will continue providing thoughtful, individualized care for children with neurological conditions and patients with sleep disorders.

## Follow-up appointments

If you already have a **2027 follow-up scheduled with me** and want to keep seeing me, **your appointment will carry over to Delta**. If you prefer to stay at TCN, their team will arrange for you to see one of my colleagues. I know them well. They're excellent doctors.

If you're unsure whether you have an appointment, **call TCN at 972-769-9000** to check.

## Insurance and appointment confirmations

Delta will accept **plans from all major insurance carriers**, and we're working to add more.

- **If your visit is January 1–14**, my team will reach out **by the end of December 2026,** to confirm your appointment time and verify your insurance coverage.
- **For other families continuing with me**, my team will reach out **during the first two weeks of January** to confirm your appointment day/time and whether your specific plan is accepted.

## Medication refills

- **Through January 3rd, 2027**, contact **TCN via patient portal or call 972-769-9000**.
- **Starting January 4th, 2027**, contact **Delta Neurology & Sleep via patient portal or email: info@deltaneurosleep.com or call 972-236-5230**.

I'm excited to build a practice of my own, and I'd love to keep caring for you and your family. Whatever you decide, thank you for trusting me. It means more to me than I probably say out loud in the exam room.

Warmly,
**Mohsin Maqbool, MD**
